

# CANTON MANUFACTURERS WILL CHEAT COAL TRUST

Gigantic Plan Proposed by H. A. Cavnah, Whereby  
Canton Factories May be Supplied With Coal,  
Without Fear of Shortage.

Association Proposes to Open Mines and, if Nec-  
essary, Construct and Operate Railroads to  
Bring the Fuel Into Canton.

A coal company, controlled by the manufacturers of Canton, with the authority to buy and sell coke, acquire, coal lands, work mines, make coke, construct and operate railroads, is a probability of the immediate future, since the meeting of the Canton Manufacturers' association in the city hall Friday evening. The meeting was called to discuss the coal question and at its opening a resolution introduced by H. A. Cavnah, president, and providing that a company be organized by the manufacturers of Canton and vicinity to avoid another disastrous winter from shortage of fuel, was adopted. The resolution was as follows:

"Resolved, That this association recommend that the manufacturers of Canton and vicinity organize a coal company, a joint stock company, chartered by the laws of some state with an authorized capital sufficient for the purpose with authority to buy and sell coal and coke, acquire coal lands, work mines, make coke, construct and operate railroads and other lines desirable for the purpose."

After the introduction of this resolution Mr. Cavnah made a few remarks in its support. He said if the manufacturers pooled their interests, acquired coal lands in this vicinity and worked these mines in the interest of the factories, the danger of another shortage in coal would be eliminated. "If necessary," said he, "let us build our own railroads from our lands to move the product of our mines."

"Coke is selling now at unreasonable, outrageous prices and everybody interested in securing coal and coke in Canton could be sockholders in this company. The idea is to make it a 'Home Coal and Coke company.' By this means we could insure a supply for future years. Cleveland people have pooled their interests and have purchased coal lands to get their supply and the amount of fuel used in Canton would justify the same cause in Canton. The eastern capitalists who have invested in the Structural Steel Car company strongly advised the formation of a manufacturers' coal

company when they were here recently."

The resolution caused considerable comment and discussion and the members finally decided to refer it to the executive committee for consideration. Before this was done three members of the largest coal consuming factories in the city were added to this committee and it was thus made a special committee to consider the formation of the coal company. The men whose names were added to the executive committee are C. P. Duff, Gordon Mather and Joseph Biechle.

During the informal talk on the coal question the prevalence of opinion in regard to the shortage in coal and coke was that the railroads were mainly responsible for it. According to the statements of one of the members of the association the trouble is to get cars at the mines and even after they have been secured it is extremely difficult to secure engines to move them. It is said that the anthracite strike has been responsible for the increased consumption of soft coal because it was demonstrated to the eastern people, who had always depended on anthracite coal, that they could use soft coal as easily and with less expense. Formerly little soft coal was shipped from the districts in this vicinity farther than Toledo or Detroit. Now it is sent to the far east and west.

The coal miners work on an average of 18 days a month and for three months in the summer the mines are idle.

A resolution was adopted endorsing the action of the Reciprocity association which met at Detroit recently and which agitated reciprocity measures with Canada, France and Cuba and instructing notification to be sent Senators Hanna and Foraker and Congressman Taylor.

Secretary Willis announced that seven members had been added to the association since the meeting last week, making a total of 44 members. "Taxation" will be one of the subjects for discussion at a future meeting of the organization. The next meeting will be held on February 6, when definite plans for the organization of the coal company will be submitted.

## MR. SNYDER ENTERS RACE FOR OFFICE

Present Custodian of City's  
Cash Has Been  
Urged to Try  
Again.

County Treasurer J. Royal Snyder today announced himself as a candidate for city treasurer. He enters the race at the solicitation of members of the Canton board of trade, who thought that by doubling up the offices the city's funds could be taken care of much more cheaply than if a separate treasury had to be fitted up and maintained.

Mr. Snyder, while in Columbus yesterday, called upon Attorney General Sheets to ascertain if he could legally hold both offices, and was told that there was nothing in the law to prevent him doing so. Mr. Snyder is the present city treasurer, and has been since he took the office. Ever since the law under which the city is now governed went into effect, the county treasurer has taken care of the city funds.

## KICKS COMING

From Patrons of Canton-Akron  
Road—Make Claim of Un-  
fair Discrimination.

Patrons of the Canton-Akron railway, who live north of the city and who board the car at Mexico school house, or Edgefield, are complaining that they have to pay ten cents a mile for riding 2 1-2 miles, while the people of New Berlin get to ride twice the distance for the same amount.

These complaints have been made to the representatives of the company and also the county commissioners in an informal way. The company has given some little encouragement that the price will be fixed at 5 cents for the short run after their power stations are all established.

## GOT OFF EASY.

George Orff, the traveling salesman arrested Thursday on complaint of William Festerly, who claimed that Orff had taken a dime bank containing several dollars while making a call on his daughter, was fined \$2 and costs by Mayor Robertson Friday afternoon. He paid up and was released.

## STRIKERS STRUCK TERROR TO TOWN

Mob of Five Hundred Union  
Workmen Attack Non-  
Unionists at Ames-  
bury, Mass.

Amesbury, Mass., Jan. 24.—A mob of five hundred persons, composed of striking carriage workers and sympathizers, terrorized this town last night, overpowered the police, chased non-union men up and down the streets, and pounded and kicked every one they could get hold of. Angry at seeing men at work in places they might have occupied the strikers lay in wait for the new men when the factories shut down last night. Some were seriously hurt.

## FIVE THOUSAND IN IT

That Sum Said to Have Been  
Offered for Submarine  
Boat Contract

Washington, Jan. 25.—Before the naval affairs committee this morning, Philip Doblin testified that Lemuel Quigg, when in congress, was anxious to get Congressman Leasler's vote for the Holland submarine boats. Quigg said there was \$5,000 in it, that he was not personally interested, but some of his friends were. He also said: "I think I can fix it for \$1,000 for you."

## CAME TO GRIEF

Boys Held for Stealing Ride.

Two lads about 17 years of age, named William Fee and Harry James, came to grief while trying to defraud the Pennsylvania company of two fares by riding on the front end of a baggage car Friday night. Officer Charles Sidle, assisted by Officer Schlemmer, soon had the youths in the toils and they were taken to police headquarters. They claimed Mansfield as their home and Italy as their birth place.

Saturday morning they were fined \$3 and costs, and lacking money, they will serve a sentence in the "works."

## PLANNING TO RAISE FUNDS

For the New Surgery to be Built  
at the Aultman Hos-  
pital.

NEARLY \$8,000 WILL BE REQUIRED.

At a meeting of the physicians and surgeons on the staff of the Aultman hospital in the city hall Friday night, the question of how to raise funds to build a modern surgery in connection with the hospital and to discharge the debt of that institution was decided. A resolution was introduced and carried that each physician be considered a committee of one to solicit his patrons for subscriptions. The money raised in this way will be applied to the building of the surgery and the payment of the debt.

It is estimated that the cost of a modern surgery with the latest and best appliances would be between \$5,000 and \$8,000. The hospital's present operating and surgical room is far too small and the appliances too antiquated for successful surgery under present conditions.

It is planned to commence the building of the addition early in the spring, should no hitch be met with.

At present the debt of the Aultman hospital is about \$12,000 and to successfully carry out the plans of the staff would require about \$20,000. No serious difficulty is anticipated in doing this.

Dr. E. J. March presided at the meeting.

## FEAST OF ORATORY

In Store for the People of Rock-  
ville School District—A  
Burning Question.

Attorney A. W. Agler and Dan W. Shetler, of Canton, have been invited to take part in a debate at the Rockville school, near Navarre, next Thursday night. The question to be debated is, "Resolved, That great men make great events." Prof. E. A. Richardson, of Navarre, and Prof. S. O. Mase, of Bolivar, will affirm, while the Canton legal lights will deny. The people in that community are promised a great oratorical feast and are being urged to turn out in large numbers. The Canton men are advertised as the attractions, and it has been intimated that they may be scalped before they get back. Agler and Shetler, however, assert that they will go down there loaded for big game and will capture it.

## AFTER REV. HARE

Cleveland Brewer Offers \$500  
for Charity if Certain State-  
ments are Proven:

Joseph A. Miller, of Cleveland, secretary of the Ohio Brewers' association, is after Rev. T. M. Hare, formerly of Canton, but now located at the Forest City. Miller's remarks to a Leader reporter are self-explanatory: "Rev. T. M. Hare, the agent of the Anti-Saloon League, told what was not true, when, at Bedford the other night, he made the statement that he knew of a Cleveland brewer who owns five residences in different parts of the country and travels around to them in a private car. I challenge Mr. Hare to prove his assertion. I will give \$500 to any charitable institution he may select if he will name the Cleveland brewer he referred to and prove that what he said is true."

## ENTERTAINS FOR WILLIE

King Ed. Establishes  
Precedent by Celebrat-  
ing Kaiser's Birthday

London, Jan. 24.—A story is being circulated in diplomatic circles here that the court party, with King Edward at its head, approves of Germany's action in Venezuela and is anxious to continue the alliance. The story is probably based on the fact that the king has arranged for a celebration of the Kaiser's birthday at Windsor next Tuesday and has especially invited the German ambassador to be present. This is the first time Emperor William's birthday has been especially observed by the court.
